

Preliminary Operational Statistics for KIX and ITM for December and Calendar Year of 2014

The New Kansai International Airport Co., Ltd. announces the preliminary operational statistics for air traffic movements and passengers at Kansai International Airport (KIX) and Osaka International Airport (ITM) for December and the calendar year 2014.

December 2014

Kansai International Airport

Number of Aircraft Movements

- Total international and domestic flights:
12,441 movements (8% increase over the previous year), increasing for the twentieth consecutive month, and posting the best December record in the airport's history.
- Total international flights:
8,024 movements (7% increase over the previous year), increasing for the fifteenth consecutive month, and posting the best December record in the airport's history.
- Total international passenger flights:
6,704 movements (7% increase over the previous year), increasing for the fifteenth consecutive month, and posting the best December record in the airport's history.
- Total domestic flights:
4,417 movements (10% increase over the previous year), increasing for the second consecutive month.

The increase of aircraft movements in December mainly owes to the increase in supply due to the highest winter schedules in the airport's history for international flights, and to new domestic service entries by LCCs and the increased number of domestic passenger flights.

Number of Passengers

- Total international and domestic passengers:
1.64 million passengers (10% increase over the previous year), increasing for the thirty-ninth consecutive month and posting the best December record in the airport's history.
- Total international passengers:
1.11 million passengers (12% increase over the previous year), increasing for the sixteenth consecutive month and posting the best December record in the airport's history.
- Total Japanese passengers:
520,000 passengers (9% decrease compared to the previous year), falling for the twelfth consecutive month.

- Total foreign passengers:
580,000 passengers (46% increase over the previous year), increasing for the thirty-fourth consecutive month, and posting the best December record in the airport's history.
- Total domestic passengers:
530,000 passengers (6% increase over the previous year), increasing for the second consecutive month.

During the month of December, KIX recorded total international and domestic passengers in excess of 1.60 million for the first time in the month in December in thirteen years, and the number of foreign passengers recorded the fourth highest figure in the airport's history, resulting in the number exceeding over the Japanese passengers for the sixth time during 2014.

Volume of Cargo

- Total volume of international airfreight cargo:
63,954 tonnes (10% increase over the previous year), increasing for the fifteenth consecutive month over the previous year.

Osaka International Airport

Number of Aircraft Movements

- Total domestic flights:
11,869 movements (1% decrease compared to the previous year), remaining about the same despite snowfall.

Number of Passengers

- Total domestic passengers:
1.19 million passengers (slightly more than the previous year), increasing for the twenty-first consecutive month over the previous year.

2014 Calendar Year

Kansai International Airport

Number of Aircraft Movements in 2014

- Total international and domestic flights:
142,000 movements (7% increase over the previous year), increasing for the third consecutive year, and posting the best calendar year record in the airport's history.
- Total international flights:
93,000 movements (10% increase over the previous year), increasing for the fifth consecutive year, and posting the best calendar year record in the airport's history.
- Total international passenger flights:
78,000 movements (10% increase over the previous year), increasing for the third consecutive year, and posting the best calendar year record in the airport's history.
- Total domestic flights:
48,000 movements (3% increase over the previous year), increasing for the third consecutive year.

The increase of aircraft movements in the calendar year of 2014 mainly owes to the highest summer and winter schedules in the airport's history for international flights, and to new domestic service entries by LCCs and the increased number of domestic passenger flights.

Number of Passengers in 2014

- Total international and domestic passengers:
19.35 million passengers (9% increase over the previous year), increasing for the third consecutive year, and exceeding 19 million passengers for the first time in thirteen years.
- Total international passengers:
13.05 million passengers (10% increase over the previous year), increasing for the third consecutive year, and posting the best calendar year record in the airport's history.
- Total Japanese passengers:
6.47 million passengers (6% decrease compared to the previous year), decreasing for the second consecutive year.
- Total foreign passengers:
6.30 million passengers (36% increase over the previous year), increasing for the third consecutive year, and posting the best calendar year record in the airport's history.
- Total domestic passengers:
6.30 million passengers (5% increase over the previous year), increasing for the third consecutive year.

The total number of international passengers in the calendar year of 2014 exceeded 13 million, which is the first time in the airport's history. (The best record in the past is 12.65 million international passengers in 2000.) The total number of foreign passengers exceeded 6 million for the first time in the airport's history. (The best record in the past is 4.64 million foreign passengers in 2013.)

Volume of Cargo in 2014

- Total volume of international airfreight cargo:
700,000 tonnes (10% increase over the previous year), exceeding the previous year for the first time in four years, exceeded 700,000 tonnes for the first time in four years.

Osaka International Airport

Number of Aircraft Movements in 2014

- Total domestic flights:
140,000 movements (2% increase over the previous year), increasing for the third consecutive year.

The increase in the total number of domestic flights in the calendar year 2014 mainly owes to the partial conversion of the slots allocated for propeller aircraft to low-noise aircraft.

Number of Passengers in 2014

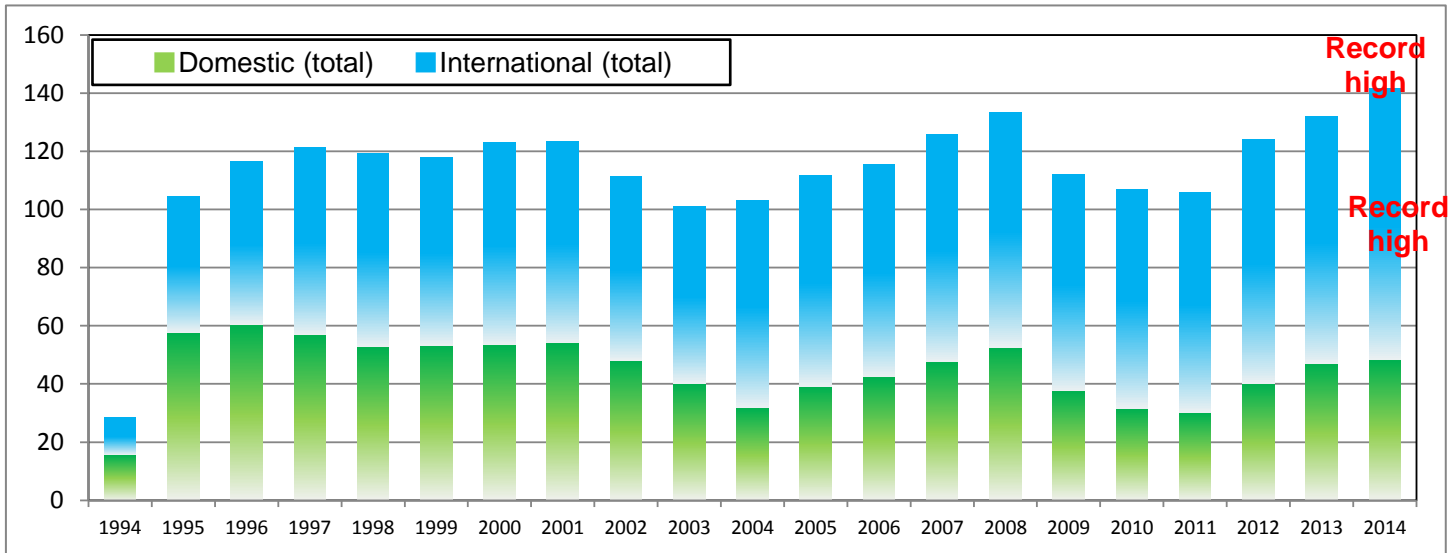

- Total domestic passengers:
14.53 million passengers (5% increase over previous year), increasing for the third consecutive year.

1. () shows % change from the previous year.

2. All numbers before June 2012 are researched by NKIAC. The number of aircraft movements before June 2012 is calculated as double the number of landings.

3. In March and September 2013, one international flight arrived and departed (no passengers).
